

Guarantee your child's future

Buy tomorrow's college tuition today

Washington's Guaranteed Education Tuition Program helps families like yours save for college. With a state guarantee, tax benefits, flexible payments and a nationwide choice of colleges, GET makes it easy to save now for your child's future.

State guarantee

The State of Washington guarantees that if you buy one year of college tuition (100 GET units) today, you'll have one year of college tuition when your child is ready for college, even if it doubles or triples during that time. Your GET units are guaranteed to keep pace with tuition and state-mandated fees at Washington's most expensive public university, either the University of Washington or Washington State University.

Choice of colleges nationwide

You can use your GET account at nearly any public or private college, university or vocational school in the country. The monetary value of your account is the same, whether your child attends a public in-state university or a private out-of-state college.

Tax-free savings and withdrawals

Because the GET Program is a state 529 plan, the after-tax money you put into your account will grow tax-free. And when your child is ready for college, the money you withdraw will remain tax-free as long as you use it for tuition, room and board, books or other qualified college expenses.

Flexibility and control

If your child doesn't go to college or receives a scholarship, you can transfer your account to another family member or request a refund. If your child attends a college with lower tuition, your GET units can be used for room and board, books, or other qualified higher education expenses. And, unlike other savings options, you maintain total control over your account.

Easy ways to save

You can set up a monthly payment plan, send a check whenever you have money to contribute, or choose a combination of the two. You can open an account for anyone – your child, grandchild, friend or even yourself – as long as either the account owner or student is a Washington resident at the time of enrollment.
